

Allergen Information and Dietary Guide

# Allergen Information and Dietary Guide

## About this guide

This guide lists what allergenic ingredients are contained in each of our dishes

The guide also shows whether or not dishes are suitable for vegetarian or vegan customers

At the bottom of this page is a key which explains how the guide works, you will find the same key in the same place at the bottom of each page in this guide

## Gluten

Most of our dishes include ingredients that contain gluten, but we are able to modify some recipes to remove these ingredients or replace them.

Gluten is found in cereals such as wheat, barley and rye, so for details of which dishes we are able to modify, please refer to the cereals containing gluten column.

## Allergenic ingredients featured in this guide in accordance with the EU Food Information Regulation are

- cereals containing gluten  
including wheat (such as spelt and khorosan), rye, barley and oats
- crustaceans  
such as prawns, crabs and lobsters
- eggs
- fish
- peanuts
- soybeans
- milk (dairy)
- nuts  
including almonds, hazelnuts, walnuts, brazil nuts, cashews, pecans, pistachios and macadamia nuts
- celery
- mustard
- sesame
- sulphur dioxide and sulphites  
(if they are at a concentration of more than ten parts per million)
- lupin
- molluscs  
such as mussels, oysters and squid

- **a red dot** means that the dish contains the specified allergenic ingredient. sometimes the ingredient is not included in the menu description but may be part of a sauce for example

**please note** the contents of this allergy guide are for informational purposes only and are not suitable for medical advice, diagnosis or treatment, whilst we try our best to ensure your food is suitable for you, our dishes are prepared in areas in which allergenic ingredients are present and we cannot guarantee that dishes are 100% free of these ingredients due to the preparation process.

## Allergen information

If you have any food allergy or intolerance, then please let a manager know before ordering or consuming any item of food from our menus. Whilst we take extensive steps to ensure that the list of allergen ingredients in our menus is accurate, we cannot say that any dish on our menus is “free-from” any allergen, but only that it does not contain that allergen as an ingredient. Dishes may be handled and prepared in an environment which contains allergens so there is a risk of cross-contamination in our kitchens. Our allergen information relates only to dishes which contain those 14 allergens which we are required to declare as ingredients and is as provided to us by our suppliers. As such, our dishes may contain additional ingredients which you could be allergic and/or intolerant to and which we have not highlighted. Our descriptions do not include all ingredients or allergens. The allergens are an ingredient not ‘may contain’.

## Food preparation

Our food can come into contact with allergens as it is prepared in a kitchen where dishes containing gluten, nuts, dairy and other allergens are also present. If you are concerned about allergen cross contamination of food or drink you wish to consume, please speak to a manager. If you suffer from sensitive trace reactions for any food-related allergen, please be aware that we are unable to guarantee full suitability, and dining with us may not be suitable for you.

At any time our suppliers may change an ingredient which changes the allergen content of our dishes. Please check and ask about allergen information every time you visit - even if you have consumed a particular dish on a previous visit. It is important to make your choices based on the current allergen content.

## Vegetarians and Vegans

Our Vegetarian and Vegan dishes are created using ingredients which have been confirmed suitable by our suppliers. They are however stored & prepared in kitchens where meat & dairy are also handled and may have come into contact with meat-based ingredients. If you would like further information on the preparation of these dishes please speak to a manager.

**a red dot** means that the dish contains the specified allergenic ingredient. sometimes the ingredient is not included in the menu description but may be part of a sauce for example

**please note** the contents of this allergy guide are for informational purposes only and are not suitable for medical advice, diagnosis or treatment, whilst we try our best to ensure your food is suitable for you, our dishes are prepared in areas in which allergenic ingredients are present and we cannot guarantee that dishes are 100% free of these ingredients due to the preparation process.
